

# Women with Type 2 diabetes: we want to hear from you!

The NHS across Leicester, Leicestershire and Rutland is partnering with Oviva UK Ltd to create a Type 2 diabetes education service with a particular focus on pre-pregnancy care.

To help us shape this service we are conducting phone interviews with women with Type 2 diabetes who have either had children or plan to have children in the future.

***If you are willing to take part in a short phone interview please contact Becky Gray on 07956713737***
